

## Prerequisites for Publication

**Authorship:** The Editors of the *Journal of Medical Ultrasonics* adhere to recommendations of the International Committee of Medical Journal Editors [<http://www.icmje.org>] regarding criteria for authorship.

Accordingly, each person listed as an author or coauthor for a submitted report (excepting Review Articles) must meet all three criteria. An author or coauthor shall have:

1. Conceived, planned, and performed the work leading to the report, or interpreted the evidence presented, or both;
2. Written the report or reviewed successive versions and participated in their revision;
3. Approved the final version.

Meeting these criteria should provide each author with sufficient knowledge of and participation in the work to allow him or her to accept public responsibility for the report.

**Certification:** This Certification Form should be signed and submitted with the manuscript. The senior or corresponding author is requested to certify that all listed authors qualify for authorship according to the above three criteria. The author(s) should also certify that: no part of the work described has been published before [except in the form of an abstract or as part of a published lecture, review, thesis, or dissertation

(appropriately cited)]; that the work is not under consideration for publication elsewhere. If the work was written by an employee within the duration of his or her employment (as “work – made for hire” in the course of employment), the work is owned by the employer. Both the employee and an authorized representative of the employer must sign the Agreement.

**Animal and Human Research:** Research involving humans must be carried out in accordance with the ethical standards of the responsible committee (institutional or regional) or with the Helsinki Declaration. Studies involving animal experimentation must include a statement of compliance with the guidelines of the author’s institution or the National Research Council’s criteria (NIH No. 86-23).

**Conflict of Interest:** All authors must disclose any financial or personal relationships that may pose conflict of interest. All disclosures should be inserted by the author in the “Conflict of interest”, which should be placed in a separate section before the reference list. If no conflict of interest is declared, then “None” should be inserted in this section.
