

Prerequisites for Publication

Authorship: The Editors of *Journal of Echocardiography* adhere to recommendations of the International Committee of Medical Journal Editors [<http://www.icmje.org>] regarding criteria for authorship.

Accordingly, each person listed as an author or coauthor for a submitted report must meet all three criteria. An author or coauthor shall have:

1. Conceived, planned, and performed the work leading to the report, or interpreted the evidence presented, or both;
2. Written the report or reviewed successive versions and participated in their revision;
3. Approved the final version.

Meeting these criteria should provide each author with sufficient knowledge of and participation in the work to allow him or her to accept public responsibility for the report.

Certification: This Certification Form should be signed and submitted with the manuscript. The senior or corresponding author is requested to certify that all listed authors qualify for authorship according to the above three criteria. The author(s) should also certify that: no part of the work described has been published before; that the work is not under consideration for publication elsewhere; that if and when the manuscript is accepted for publication, the author(s) agree to automatic transfer of the copyright to the society and that the manuscript, or its parts, will not be published elsewhere subsequently in any language without the consent of the copyright holders.

Animal and human research: Research involving humans must be carried out in accordance with the ethical standards of the responsible committee (institutional or regional) or with the Helsinki Declaration of 1964 and all subsequent revisions. Studies involving animal experimentation must include a statement of compliance with the guidelines as recommended by the Science Council of Japan or the National Research Council's criteria (NIH No. 86-23). **Animal and human research statements should be present on every manuscript before the References section.**

Conflict of interest (COI): When authors submit a manuscript, they are responsible for disclosing all financial and personal relationships that might bias their work. To prevent ambiguity, authors must state explicitly whether potential conflicts do or do not exist. Each author must complete and submit a COI disclosure statement, and the corresponding author should submit all the COI disclosure statement when submitting a manuscript. Each author must indicate whether or not they have a financial relationship with any organization that sponsored the research, or is associated with any product or procedure that is mentioned in the article. For each source of funds, both the research funder and the grant number should be given. The form must be submitted to the journal's editorial office by uploading it as a PDF file. **Conflict of interest statements should be present on every manuscript before the References section.**

Certification Form – to be submitted with manuscript to *Journal of Echocardiography*

Manuscript title:

I/We hereby certify that the work submitted is in full accordance with the statement of "Prerequisites for Publication" for *Journal of Echocardiography*

Author's name (please print)

Author's signature

Date _____

JOURNAL of Echocardiography (JEcho)

Conflict of Interest (COI) Disclosure Form

Manuscript Title:

Each author is required to complete and return this form to the corresponding author.

(Please DO NOT send to JSE Society Office)

When authors submit a manuscript, they are responsible for disclosing all financial and personal relationships that might bias their work. To prevent ambiguity, authors must state explicitly whether potential conflicts do or do not exist. Each author must complete and submit this COI disclosure form, and the corresponding author should submit all the COI disclosure forms when submitting a manuscript. Each author must indicate whether or not they have a financial relationship with any organization that sponsored the research, or is associated with any product or procedure that is mentioned in the article. For each source of funds, both the research funder and the grant number should be given. The form must be submitted to the journal's editorial office by uploading it as a PDF file.

Conflict of interest statements should be present on every manuscript before the References section. The statements should list each author separately by name. Sample wording is as follows:

Conflict of interest: John Smith declares that he has no conflict of interest. Paula Taylor has received research grants from Drug Company A. Mike Schultz has received a speaker honorarium from Drug Company B and owns stock in Drug Company C.

If multiple authors declare no conflict, this can be done in one sentence:

Conflict of interest: John Smith, Paula Taylor, and Mike Schultz declare that they have no conflict of interest.

If you, your spouse, a relative in the first degree, or any other person who shares income or assets, has any of the listed relationships with a commercial entity that has an interest in the subject matter in your manuscript, please circle "yes" and provide details. If the listed relationship does not apply to you or your family member, circle "No".

Category	Applicability	If yes, record the following details for each company or organization.
1. Position as an officer or advisor of a company or for-profit organization and remuneration amount (¥1,000,000 or US \$ 10,000, or more)*	Yes/No	Company or organization name: Position:
