

HUMAN CELL

Prerequisites for Publication

Manuscript title: _____

Authorship: The Editors of *Human Cell* adhere to recommendations of the International Committee of Medical Journal Editors [<http://www.icmje.org/>] regarding criteria for authorship.

Accordingly, an author or coauthor for a submitted report must meet all three criteria.

An author or coauthor shall have:

1. Conceived, planned, and performed the work leading to the report, or interpreted the evidence presented, or both;
2. Written the report or reviewed successive versions and participated in their revision;
3. Approved the final version.

Meeting these criteria should provide each author with sufficient knowledge of and participation in the work to allow him or her to accept public responsibility for the report.

Certification: This Certification Form should be signed and submitted with the manuscript. Signing on behalf of all coauthors of this article, the first author is requested to certify that all of the coauthors qualify for authorship according to the above three criteria. The author(s) should also attest that: no part of the work described has been published before; that the work is not under consideration for publication elsewhere; that if and when the manuscript is accepted for publication, the author(s) agree to automatic transfer of the copyright to the society and the publisher and that the manuscript, or its parts, will not be published elsewhere subsequently in any language without the consent of the copyright holders.

Conflict-of-Interest Policy

All benefits in any form from a commercial party related directly or indirectly to the subject of this manuscript or any of the authors must be acknowledged. For each source of funds, both the research funder and the grant number should be given. This note should be added in a separate section on the title page.

If no conflict exists, authors should state: The authors declare that they have no conflict of interest.

First Author : _____

Printed Name/Date : _____

This agreement must be signed by the first author, on behalf of all coauthors of this article, for the manuscript to be published.
